Each volume in This series is co-published by the AMS and the Clay Mathematics Institute. The Geometrization Conjecture. Thurston's Geometrization Conjecture (now, a theorem of Perelman) aims to answer the question of whether every compact 3-manifold can be decomposed into pieces that are topologically simple. Mathematicians define this field of study as topology. .. 3 of Clay Mathematics. Monographs, American Mathematical Society, Providence, RI, Clay Mathematics Monographs is a series of expositions in mathematics co- published by AMS and John; Gang Tian ().
